

Required Tools: (Not included)

- A. 3 mm Allen wrench
- B. Flat screwdriver
- C. 5 mm Allen wrench

⚠ WARNING

⚠ CAUTION: To avoid potential shock or other injury, turn power switch OFF and disconnect charger before conducting any assembly or maintenance procedures. Failure to follow these steps in the correct order may cause irreparable damage.

Step 1

Using a 3 mm Allen wrench, loosen the set screw from the throttle and move the throttle away from the grip.

**Step 2**

Using a flat screwdriver, insert the blade of the screwdriver in between the grip and the handlebar. Add a few drops of lubricant or soapy water and remove the grip.

Step 3

Using a 5 mm Allen wrench, loosen the set screw from the brake lever. Move the brake lever away from the grip.

Step 4

Using a flat screwdriver, insert the blade of the screwdriver in between the grip and the handlebar. Add a few drops of lubricant or soapy water and remove the grip.

Step 5

Reverse the steps.

ATTENTION: Charge battery 12 hours before using.
