

Required Tools: (Not included)

- T25 driver
- Phillips screwdriver

⚠ WARNING

⚠ CAUTION: To avoid potential shock or other injury, turn power switch **OFF** and disconnect charger before conducting any assembly or maintenance procedures. Failure to follow these steps in the correct order may cause irreparable damage.

Step 1

Using a T25 driver, remove the six (6) screws from the deck and pull the deck away from the unit.

**Step 2**

Locate and disconnect the charger port from the battery and battery connector from the controller.

Step 3

Using a Phillips screwdriver, remove the four (4) screws from the battery brackets and lift and remove the battery from the unit.

Step 4

Install the new battery, then reverse steps 1 through 3.

ATTENTION: Charge battery 5 hours before using.
