SAFETY WARNINGS

⚠ AN IMPORTANT MESSAGE TO PARENTS:

Razor Lightwave Balance Bike is intended to allow younger children to explore, learn and enjoy their early experiences using ride-on toys. Adult supervision is required as children learn and grow because children do not understand the risks of riding and are at a very high risk of falling and injuring themselves.

This manual contains important information. For your child's safety, it is your responsibility to review this information and make sure that you instruct your child to follow all warnings, cautions, instructions and safety topics. Razor USA recommends that you periodically review and reinforce the information in this manual with younger riders and that you inspect and maintain your child's product to insure their safety.

- Do not allow children under age 12 months to use the product. Close adult supervision is required.
- This product has no brake. Place feet on floor to stop.
- Always wear closed toe shoes.
- Ride on smooth surfaces.
- Do not exceed 44 lb (20 kg) total weight on the Razor Jr ride-on.
- Rider weight does not necessarily mean a child's size is appropriate to fit or maintain control of the ride-on.
- A parent's decision to allow his or her child to ride this product should be based on the child's maturity and skill.
- Only ride the Razor Lightwave Balance Bike while seated.
- Never attempt to mount or dismount product while it is moving.

ACCEPTABLE INDOOR RIDING PRACTICES AND CONDITIONS

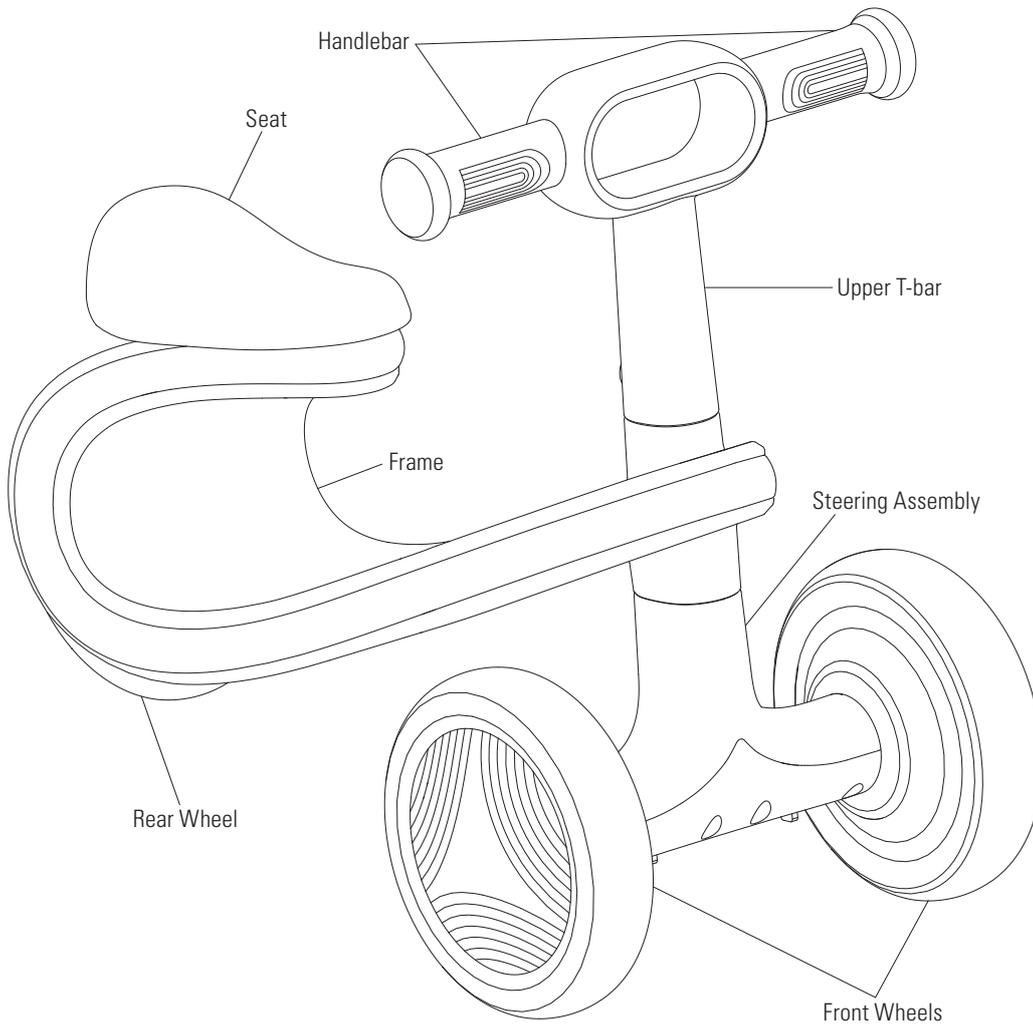

Direct parental supervision is required at all times. Ride-ons are meant to be used only in controlled environments. Child must maintain a hold on the handlebars at all times. Never allow more than one child at a time to ride a ride-on. Never use near steps, sloped driveways, hills, roadways, alleys or swimming pool areas. Do not use the Razor Lightwave Balance Bike on a hill, steep slope, over rough terrain or uneven surfaces.

FAILURE TO USE COMMON SENSE AND HEED THE ABOVE WARNINGS FURTHER INCREASES RISK OF SERIOUS INJURY. USE AT YOUR OWN RISK AND WITH APPROPRIATE AND SERIOUS ATTENTION TO SAFE OPERATION. USE CAUTION.

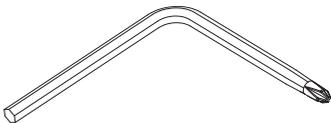

⚠ WARNING: ALWAYS INSPECT RIDE-ON PRIOR TO RIDING. Properly inspecting and maintaining your ride-on can reduce the risk of injury. Always inspect your ride-on before riding and regularly maintain it. Replace worn parts when they occur.

BEFORE YOU BEGIN

Adult assembly required. Remove contents from box. Inspect the contents for scratches or damage that may have occurred during shipping. Because your bike was partially assembled and packed at the factory, there should not be any problems, even if the box has a few scars or dents.

▣ Required Tool

Phillips Screwdriver (Included)

⚠ WARNING: DO NOT USE NON-RAZOR PRODUCTS WITH YOUR RAZOR PRODUCT. Razor Lightwave Balance Bikes have been built to certain Razor design specifications. The original equipment supplied at the time of sale was selected on the basis of its compatibility with the frame and all other parts. Certain aftermarket products may not be compatible and will void the warranty.

Product ID Locations:
(See locations to the left)

1. Under frame
2. Box - side of UPC (Not Shown)

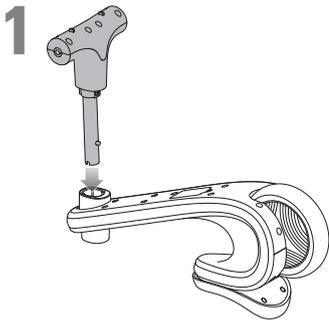

Box Contents:

- Balance Bike
- Owner's Manual
- Phillips Screwdriver

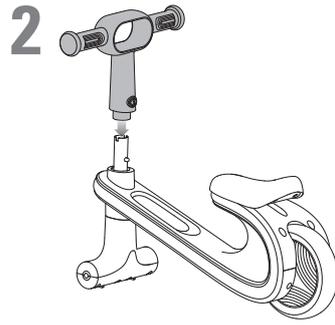

Need Help? Visit our website for replacement parts, product support, a list of authorized service centers in the US and customer service contact information at www.razor.com. Please have the product I.D. code (located on the white label of your product) available for better assistance. Additional Customer Service contact information is listed at the back of this manual.

ASSEMBLY AND SET-UP

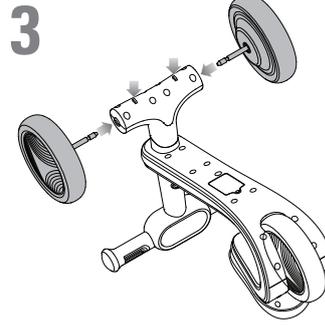

□ Bike Assembly

1 Turn Frame upside down and push the steering assembly through the head tube as shown.

2 Flip the frame right side up and push the Tbar down onto the steer tube to engage it with the steering assembly. There will be an audible "click" sound when engaged properly. Pull up on the handlebar to test that the Tbar is properly engaged and locked.

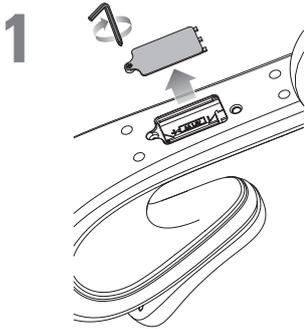

3 Push each wheel into the steering assembly until they are fully engaged. Pull outward to test if they are properly locked.

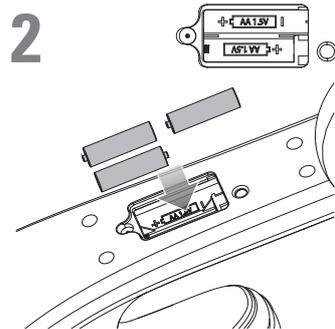

NOTE: Make sure the Razor logo is facing outward when inserting the T-bar.

□ Installing the Batteries

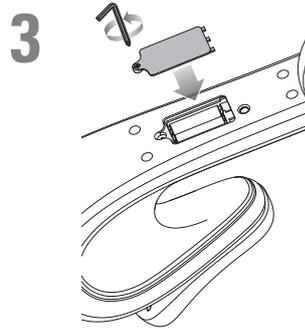

Required Tool: Phillips screwdriver (included)

1 Remove the battery cover.

2 Install three (3) AA batteries (included) following the diagram inside the battery compartment.

3 Replace battery cover and tighten the screw.

⚠ WARNING:

- AAA batteries included for lights - adult attention for installing, changing and disposal.
- Batteries should only be installed or replaced by an adult.
- Loose batteries could present a choking hazard and should be kept away from small children.
- Do not mix old and new batteries.
- Do not mix alkaline, standard (carbon-zinc) or rechargeable (ni-cad, ni-mh, etc.) batteries.
- Dispose of batteries properly.

Note: Batteries are not covered under the Limited Warranty.

PRE-RIDE CHECKLIST

Deck and Handlebars

Check for cracks or broken connections. Get in the habit of inspecting your product on a regular basis.

Safety Gear

Always wear proper protective gear, such as an approved safety helmet. Elbow pads and kneepads are recommended. Always wear closed toe shoes (lace-up with rubber soles) and keep shoelaces tied and out of the way of the wheels. NEVER RIDE BAREFOOTED OR IN SANDALS.

Hardware/Loose Parts

Check and secure all fasteners before every ride. Make sure the handlebars and the plastic cover are locked properly in place before riding. There should not be any unusual rattles or sounds from loose parts or broken components. If the unit is damaged, do not ride.

Reference "Safety Warnings" on page 1 of this manual.

Laws and Regulations

Always check and obey any local laws or regulations.

Be Careful!

This product is not for aggressive or trick riding. Avoid steep inclines and don't ride too fast — you can lose control and fall. Skateboard parks are not designed for young riders. Never ride in traffic or on the street and watch your surroundings for pedestrians, bikers, boarders and skaters.

Maintain a hold on the handlebars at all times.

LIGHT MODES

There are 20 light patterns on the Lightwave Balance Bike

1. Turn on the lights by pressing the red switch located under the frame.
2. Press the switch again to cycle through 20 light patterns.
3. A long press of the red switch will turn the lights off.

REPAIR AND MAINTENANCE

Cleaning

Wipe with a damp cloth to remove dirt and dust. Do not use industrial cleaners or solvents, as they may damage the surfaces. Do not use alcohol, alcohol-based or ammonia-based cleaners, as they may damage or dissolve the plastic components or soften the decals or decal adhesive.

Wheels

Under normal circumstances and conditions, Razor wheels are maintenance free. Nonetheless, it is the responsibility of the owner or guardian to periodically inspect the wheels for wear and tear, the axle for proper tightness, and for loose parts. When a wheel develops play, this is an indication of excess wear and replacement is necessary. Replace immediately with only genuine Razor parts. Worn wheels are considered normal wear-and-tear and are not covered by the Razor Warranty. Wheels other than genuine Razor wheels may not be compatible with your Razor scooter. The use of anything other than genuine Razor replacement parts may affect your safety and will void your warranty.

Replacement Parts

The most frequently requested replacement parts are available for purchase at some Razor retail partners. For the complete selection of replacement parts visit www.razor.com.

Repair Centers

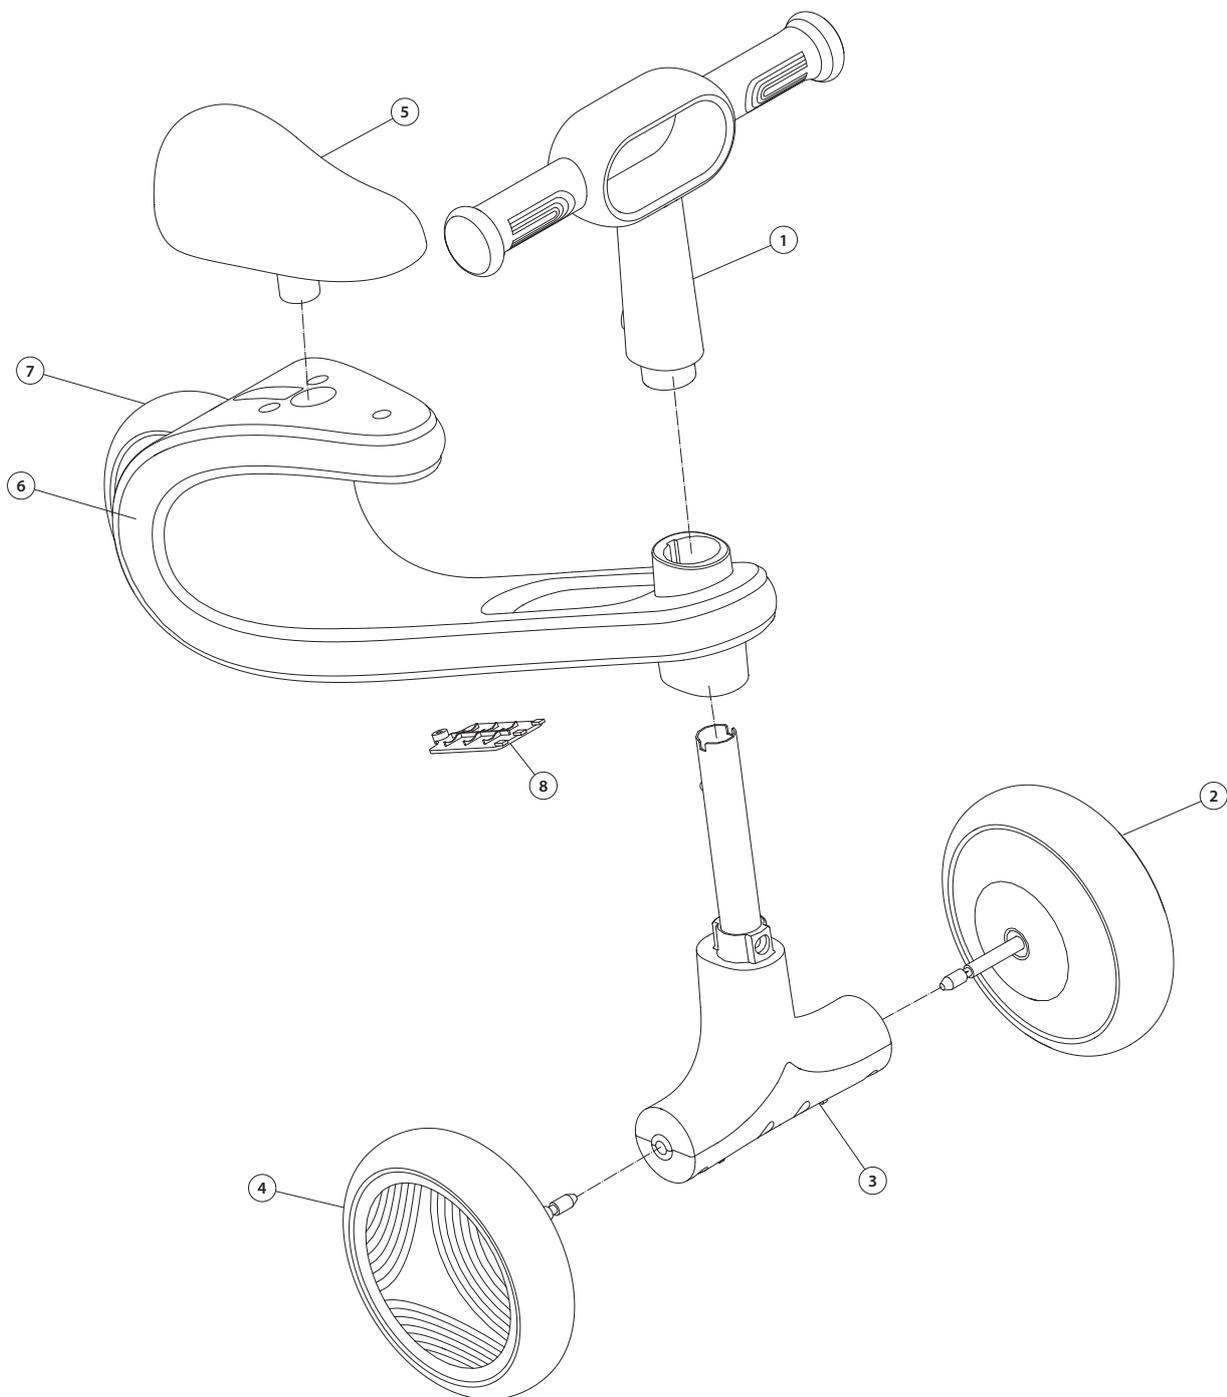

For a list of authorized Razor repair centers:

- Check online at www.razor.com.
